Education

Prananath autonomous college Khorda, Odisha, Board of secondary Education 2021-2022

Konark Institute of Science and Technology Bhubaneswar, Odisha *Bachelor of Technology in Computer Science*
2022 – 2026

Technical Skills

Languages: JavaScript, TypeScript, Java, HTML, CSS, Python

Frontend: React.js, Next.js, Redux Toolkit, TanStack Query

Backend: Node.js, Nest.js, Express.js, Prisma

Database: PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Docker (basic), Vite, expo(basic)

Summary

Self-taught Fullstack Web Developer passionate about building scalable web applications and solving real-world problems. Learned modern web development technologies through online resources, projects, and documentation. Skilled in both frontend and backend development with hands-on experience creating fullstack projects. Enthusiastic about continuous learning, open-source, and applying problem-solving skills in collaborative environments.

Projects

gearart | [Website](#) | [GitHub](#) | Tech Stack: *React, Express, Redux, MongoDB, Razorpay*

- * Created an e-commerce platform with RESTful APIs for dynamic product data and jwt based user authentication.
- * Integrated RazorPay for secure payments with signature verification .
- * Utilized Redux for state management , enabling efficient handling user sessions, cart updates, wishlists
- * Handling customer orders, tracking order status.
- * Deployed on Vercel(Frontend) and Render(Backend).

College event portal | [Website](#) | [GitHub](#) | Tech Stack: *Next.js, Resend email, Clerk, PostgreSQL, Prisma*

- * Developed a full-stack [Next.js](#) application designed to streamline the organization and manage college events.
- * Integrated Clerk to handle seamless authentication session management to avoid cors errors.
- * Implemented Resend email service to keep users up to date about events and it's cancellations updates.
- * Dashboard for organizers to monitor and update event activity.

Blog Post | [Website](#) | [GitHub](#) | Tech Stack: *React, Express, MongoDB, Cloudinary*

- * Created a platform where anyone can share their personal blog
- * Implemented jwt based user authentication for secure login and account management .
- * Used mongoDB for storing user accounts , post details and Cloudinary for image storing.
- * Integrated RESTful APIs with Express and node.js to handle backend logic.

React Previewer | [Website](#) | [GitHub](#) | Tech Stack: *React, Babel*

- * Developed a simple website to quick preview XML files(JSX / TSX) with tailwind support.
- * Added babel javascript compiler to compile the XML files, without setting up a react project locally
- * Allow developers to preview a single component

Languages: Odia, Hindi, English
